3. Course Objectives and Format

The DAN Department of Management and Organizational Studies as a whole draws upon an evidence-based management approach. Evidence-based management is the systematic process of gathering evidence from multiple sources, critically appraising the evidence, and using that evidence in making and evaluating management decisions to improve organizational performance.

3.1 Course objectives

This course integrates the various research tools used within the social sciences and applies them to real-life marketing research settings. The course considers the role of marketing research in society and its relevance to firms and individuals, providing a strong basis for understanding how research is developed and informs evidence-based management and decision-making. The focus will be on how to develop research designs, instruments, and methodologies to answer specific applied research questions and theories. Marketing research is an applied management discipline that is crucial to understanding markets and customers in order to make better marketing decisions, or, in other words, to support evidence-based management.

3.2 Course format

The basic pedagogy in the course takes several forms. The lectures and the readings are the basis of knowledge acquisition. The lectures, class discussions, classroom activities, reading assignments, and video presentations will provide the opportunity to learn the concepts and

theories of various marketing research topics, and to apply this knowledge in a systematic manner. Much of the class sessions will be devoted to applying, extending and critiquing the material in the assigned readings. This means that it will be challenging to succeed in this course without regularly attending class (virtually or in person), and students are expected to contribute to class sessions. During the term, students are encouraged to share marketing research examples that you might come across, either directly or via the media, with the class.

4. Learning Outcomes

Taking this course, students will gain the following experiences and skillsets:

1. Synthesizing social science research approaches, and developing knowledge and awareness of available research methods and tools/designs for discovering insights into marketing phenomenon and for collecting, compiling, and analyzing marketing data.
2. Identifying appropriate statistical tests to apply to marketing research questions, conduct, analyze and interpret research data, as well as infer conclusions and apply the findings to reconstruct marketing theories and strategies.
3. Generate and design a marketing study to investigate and solve a novel and managerially relevant research question. Students will gain experience formulating a research question, constructing a theoretical framework from an identification and interpretation of relevant literature, and generate hypotheses. They will apply their learned knowledge in justifying; appropriate research design, data collection, and statistical techniques, identify the limitations of the proposed research, and conclude managerial and theoretical implications of the research.
4. Refine essay-writing skills by formulating and composing a research proposal; practice communication and critical thinking skills, as well as manage peer learning by debating, investigating, explaining, and demonstrating scientific methods and statistics.

5. Evaluation

There are five evaluation components in the course.

Application Tasks = 25%

Google Analytics for Beginners Certificate = 10%

Hootsuite Social Media Certificate = 10%

Marketing Research Proposal (due final class) = 25%

Final Exam (during examination period schedule by the Registrar) = 30%

Total = 100%

Students are responsible for material covered in the lectures as well as the assigned chapters/sections in the text. Students are **REQUIRED TO COMPLETE ALL COMPONENTS** of this course. There are no exceptions to this. Extra assignments to improve grades **will NOT** be allowed.

Grades will not be adjusted on the basis of need. It is important to monitor your performance in the course. Remember: You are responsible for your grades in this course.

The DAN Department has a grade policy which states that for courses in the 3000-4000 range, the class average must fall between 70% and 77% for all sections of a course taught by the same instructor. In very exceptional circumstances only, class averages outside this range may be approved by the Undergraduate Chair or Chair. Class averages are not grounds for appeal.

6. Lecture and Examination Schedule

See schedule on OWL.

7. Student Responsibilities

Students should familiarize themselves with Western University Senate Regulations, please see: http://www.uwo.ca/univsec/academic_policies/index.html.

Material covered in lectures will not always be the same as material covered in the textbook. These two sources should be viewed as complimentary and not redundant. As such, students who want to do well in this course are **strongly encouraged** to attend lectures on a regular basis. Please note that the instructor will not be providing copies of lectures notes or overheads. Therefore, if you miss a lecture, you should try to obtain this material from another student.

7.1 Respect

Please act respectfully towards the classroom, the Professor and your fellow students. Acting respectfully means arriving on time, turning off phones, avoiding private discussions during lectures, refraining from viewing non-course material on your laptops, and cleaning up after yourself. Acting respectfully provides a better learning experience for everyone.

7.2 No Recording of Classes

Students are not permitted to record any portion of a class, audio or video, without the prior written permission of the professor.

7.3 Copyright Notice

Lectures and course materials, including power point presentations, outlines, and similar materials, are protected by copyright. You may take notes and make copies of course materials for your own educational use. You may **not** record lectures, reproduce (or allow others to reproduce), post or distribute lecture notes, wiki material, and other course materials publicly and/or for commercial purposes without my written consent.

8. Attendance

It is expected that students will attend all classes in the format offered that week for the blended course (either online or in person). The professor does not provide access to lecture notes. Students are encouraged to obtain missed lecture notes from a fellow student.

8.1 Short Absences.

If you miss a class due to minor illness or other problems, check your course outlines for information regarding attendance requirements and make sure you are not missing a test or exam. Cover any readings and arrange to borrow the missed lectures notes from a classmate.

8.2 Extended Absences.

If you are absent more than approximately two weeks or if you get too far behind to catch up, you should consider reducing your workload by dropping one or more courses. The [Academic Counsellors](#) can help you to consider the alternatives. At your request, they can also keep your instructors informed about your difficulties.

9. Grade Fairness

Fairness requires that all students be treated equally and be evaluated using the criteria set out in this course outline. The evaluation criteria are based on actual achievement and not on how hard a student has tried.

10. Posting of Grades

Final exam grades and final course grades are not posted on OWL and are available once they have been posted by the Registrar under "Academic Summary" at the [Student Centre](#) website.

11. University Policy Regarding Illness

11.1 Illness

For details on the Academic Consideration for Student Absences (including accommodation, illness and self-reported absences (SRAs)), go to:

https://www.uwo.ca/univsec/pdf/academic_policies/appeals/accommodation_illness.pdf

The current Illness Policy is available here (subject to change):

https://dan.uwo.ca/undergraduate/course_information/IllnessPolicy.pdf

11.2 Make Up Examinations

The student must write a make-up exam if the regularly scheduled exam is missed for reasons for which adequate documentation is received by the instructor (this documentation must be supplied by the Academic Counseling office). If you miss an exam due to illness or other unforeseen reason, you must email me within 24 hours of the regularly scheduled exam and provide documentation of the reason for missing the exam to your Academic Counsellor.

The date and time of the make-up examination will be set by the instructor, who will communicate the date to the student.

If a student is unable to meet the scheduled make-up as agreed, then the student is responsible for obtaining new accommodations from Academic Counselling, and seeking a new make-up date with the instructor within a reasonable time frame.

12. University Policy on Cheating and Academic Misconduct

Students are responsible for understanding the nature of and avoiding the occurrence of plagiarism and other academic offenses. Students are urged to read the section on Scholastic Offenses in the Academic Calendar. Note that such offenses include plagiarism, cheating on an examination, submitting false or fraudulent assignments or credentials, impersonating a candidate, or submitting for credit in any course without the knowledge and approval of the instructor to whom it is submitted, any academic work for which credit has previously been obtained or is being sought in another course in the University or elsewhere. If you are in doubt about whether what you are doing is inappropriate, consult your instructor. A claim that "you didn't know it was wrong" will not be accepted as an excuse.

A copy of guidelines about how to avoid cheating can be obtained from the Office of the Ombudsperson, Room 3135 WSSB, (519) 661-3573, ombuds@uwo.ca.

Cheating on exams will not be tolerated; students are referred to the university policy on scholastic offenses. Looking at the test of another student, allowing another student to view your exam, or obtaining information about a test in advance are all examples of cheating.

Students found cheating will receive a zero (0%) on that exam. A number of safeguards will be employed to discourage cheating. For example, examination supervisors (proctors) of the tests may ask students to move to another seat during the exam, cover their paper, avert their eyes from other students' papers, remove baseball caps, etc. This is not meant as a personal affront nor as an accusation of cheating, rather as vigilant attempts at proctoring.

The penalties for a student guilty of a scholastic offense include refusal of a passing grade in the assignment, refusal of a passing grade in the course, suspension from the University, and expulsion from the University.

13. Procedures For Appealing Academic Evaluations

1. In the first instance, all appeals of a grade must be made to the course instructor (informal consultation).

2. If the student is not satisfied with the decision of the course instructor, a written appeal must be sent to the Undergraduate Chair: Student Affairs of the Department of Management and Organizational Studies.
3. If the response of the Undergraduate Chair is considered unsatisfactory to the student, he/she may then appeal to the Dean of the Faculty in which the course of program was taken.
4. Only after receiving a final decision from the Dean may a student appeal to the Senate Review Board Academic. A Guide to Appeals is available from the Office of the Ombudsperson.
